

evolite™

Compostable plant
fiber-based tableware
built for takeout, delivery,
and everyday dining.

Evolite™ is a compostable, plant fiber-based alternative to plastic tableware.

Choose Evolite™ plant fiber-based tableware to help reduce plastic waste and create a more sustainable foodservice operation, without compromising performance.

Evolite™ products are BPI Certified and compost within three months in a commercial composting facility, decades faster than most plastic tableware. They hold out grease and water with no added PFAS, handle hot and cold foods with ease, and hold up to the demands of takeout and delivery.

A more sustainable choice without sacrificing functionality.

Key Benefits

Compostable in less than three months in a commercial composting facility

Holds out grease and water with no PFAS added

Made from renewable plant fibers

Suitable for hot and cold foods

Microwavable and freezer safe

Durable and sturdy for takeout
